

Deploy 1

projects
id
project_name
priority
...

futureperfect abc123

Was:
project.project_name

project.count => 5

Deploy 2

projects
id
name
priority
...

futureperfect asdk45

Now:
project.name

people add 10 projects, so:
project.count => 15

Then we find a bug!!!

Rollback to first
working version

projects
id
project_name
priority
...

futureperfect abc123

This is the code that
used project.project_name

project.count => 15

migration 20130114
rename project_name
to name

rollback migration
20130114

```
def up
  rename_column :projects, :project_name, :name
end
```

```
def down
  rename_column :projects, :name, :project_name
end
```

-or-

```
def change
  rename_column :projects, :project_name, :name
end
```
